## **SUN-AIR won the prize for “Best European Airline” at the Danish Travel Awards 2009**

Tuesday the 19<sup>th</sup> of November the Danish airline SUN-AIR of Scandinavia A/S was awarded the prize for “Best European Airline” at The Danish Travel Awards at the Crowne Plaza Copenhagen Towers.

It was a happy and moved assistant manager, Kristian Tvergaard, who accepted the prize on behalf of SUN-AIR. “We are extremely proud that we managed to win this prize. We did not at all expect to be considered as we only operate regional scheduled flights to and from Jutland, and therefore the joy is even greater. Our vision has always been to become the best regional scheduled airline in Europe – and the fact that we won the prize only confirms that we are well on our way. It shows us that it pays off to go against the wind and provide outstanding quality and service,” he states.

Kristian Tvergaard adds: “It is nice to experience that our constant focus on providing first-class products with high service before, during and after the flight is appreciated by our customers and travelling agencies. Naturally we are aware that we could never have done this without a strong brand like British Airways that has supported us since 1996. We would like to thank everyone who voted for us, and especially all our many regular and satisfied customers that we welcome on board every day. We will do our best to live up to this prize and will keep looking for possible new routes to and from Jutland.”
